SUBJECT INDEX TO VOLUME 55

Acute NOAELs and LOAELs for $CHCl_3$ and $CHBrCl_2$, 65
AflatoxinB1 suppression of NO production, 517
Aflatoxins in autopsy kidney specimens, 317

Beluga cells exposed to organochlorines, 479

Cardiovascular hospitalization and ambient CO, 185
Chromosome aberration assay in BEAS-2B cells, 325
Cytotoxicity of coffee maillard reaction products, 151

Effect of Ni^2 on leydig cells, 213
Effect of lead on capacitation in rat sperm, 45
Effects of I^- and I^2 on human thyroid, 93
Effects of lead on hatchling slider turtles, 495
Elimination kinetics of pyrene, 503
Endogenous trace metals in Al-treated mouse, 445
Ethanol and trichloroethylene metabolism, 297

Fishing and risk along the Savannah river, 405

HPA axis effects of ian inhalation, 345
[^{3}H]Retinol absorption in TCDD-treated rats, 331

Interaction of TBT with Cb-induced EROD activity, 373

Lan distillate neurotoxicity/nephrotoxicity, 277
Lung epithelial cell priming and environmental particles, 31
Lung urokinase and TGF-β activation, 359

Oncogenes activation in KMB-13 cells by scooter emissions, 307

Particle pollution response of human cells, 455
PCBs modulate proto-oncogene expression, 121
Peripheral neurotoxicity in Ecuadorians, 77
Pesticides and tree swallows. Part I. Immunology, 531
Pesticides and tree swallows. Part II. Sex hormones, 561
Propanil inhibits splenic cell cytokine production, 107

Removal efficiency of choloroform by rice bran, 385
Renal uptake of Hg-Cysteinyl homologs, 13
Renal apoptosis by cadmium in vivo, 1
Respiratory morbidity and dust pollution, 169

Sex-dependent benzene metabolism in mice, 421
Short exposures to hydrogen fluoride, 241
Strain differences in aminophenol toxicity, 225

TBT modulates PCB-induced BYP1A activity, 197
Thiol homeostasis under sulfer amino acid deficiency, 583
Toxicity of dietary benzothiophene in rats, 133

Water supply intervention and cancers, 389
